

Comparison of Cultivation Area

Vegi Tree Farm can achieve space efficiency

Vegi Tree can cultivate 1.5 times more lettuce compared to flat multi tier system.

Example of LED light length 1200mm

Comparison of Power Consumption

Sharing LED lights for energy saving

Flat multi tier type

Cultivation: 156 plants (2 tiers)

6.5 plants per LED

Since lettuce grows while rotating in the Vegi Tree, each light can nurture 12 lettuce plants.

Vertical type

Cultivation: 240 plants

12 plants per LED

Example of LED light length 1200mm
